

TEST YOUR PATIENTS FROM HOME

SHIP A KIT DIRECTLY TO YOUR PATIENT, RATHER THAN TO YOUR PRACTICE

Log in to our online provider portal to submit the test request form electronically and to indicate you want the kit sent directly to the patient.

NIPS and carrier screening are critical to comprehensive pregnancy risk assessment that allows you to manage each patient appropriately. Please ensure you have accurate billing and shipping information for each person receiving a kit. Also, make sure your patients set up a patient portal account so they can track sample progress and view results, if desired.

1 Log in to our secure online portal.

- If you already have a username, log in to your account.
- To register for our portal, provide your sales representative with your email address and Myriad will send you an email with a link to select a password and access your account.

2 Proceed to ordering and when asked "Do you have a collection kit?" select "No."

The screenshot shows the Myriad Women's Health online provider portal. The top navigation bar includes links for Home, Order, Estimate Price, Patients^{classic}, Diseases, and Patients. The main heading is "Order the Foresight Carrier Screen + Prequel Prenatal Screen". Below this, it says "Please complete the form below." and "1. Patient Information".

Patient's Email Address
jane.smith@gmail.com

Patient's Phone Number
508-124-1243

Myriad will use this information to contact the patient via automatic e-mail, SMS and/or phone regarding payment, screen processing status and online results access. By providing this information, I confirm that I have obtained the patient's express authorization to be contacted by Myriad through any of these means.

International numbers must begin with a + followed by the international country calling code.

Gender (dropdown menu)
First Name (text field)
Last Name (text field)
Date of Birth (mm/dd/yyyy)

Do you have a collection kit?
☐ Yes ☒ No

*Myriad Women's Health will send a collection kit to this patient. Contact prenatalsupport@myriad.com if shipping outside the U.S.

3 The Myriad team will then send a test kit directly to the patient's home.

The kit will include specimen collection instructions, a pre-paid return shipping label, and a return envelope. Patients will be notified via email to expect a shipment.

4 For Prequel, the patient will contact Client Services to discuss blood collection options and the phlebotomist will send the specimen to Myriad for processing.

For Foresight, the patient (and her partner) will collect saliva samples and will send the specimen(s) to Myriad for processing.

5 Once Myriad has received the patient sample(s), turnaround time, billing, and report delivery will proceed as normal.

6 If you signed up for our results delivery service, we will notify your patient when results are ready. Patients can access results via the patient portal and speak with a member of our clinical Patient Education team about their results at no additional cost.
