Statement regarding use of non-GAAP financial measures

In this press release, the company's financial results and financial guidance are provided in accordance with accounting principles generally accepted in the United States (GAAP) and using certain non-GAAP financial measures. Management believes that presentation of operating results using non-GAAP financial measures provides useful supplemental information to investors and facilitates the analysis of the company's core operating results and comparison of operating results across reporting periods. A reconciliation of the GAAP financial results to non-GAAP financial results is included in the attached schedules and a description of the adjustments made to the GAAP financial measures is included at the end of the schedules.
